

### New or Revised Standards or TIPS

TIP 0404-33 “Dryer section performance monitoring” (Revision)

TIP 0404-39 “Dryer surface temperature measurement” (Revision)

TIP 0404-53 “Dandy roll applications” (Revision)

TIP 0408-01 “Checklist for a properly planned project” (Revision)

### Notice of TAPPI Standards in Ballot

The TAPPI Standards regulations require public review of standards that are up for ballot. TAPPI members can view any drafts that are in ballot by logging in to the TAPPI web site ([www.tappi.org](http://www.tappi.org)), clicking on “My TAPPI,” and then clicking on the “Standards Public Draft Review” link on the left side of the page. If you would like to review and comment on any draft and are not a member of the corresponding Standard-Specific Interest Group (SSIG), you may view the draft on line or you may request a copy of the draft being balloted by writing to [standards@tappi.org](mailto:standards@tappi.org). Nonmembers of TAPPI should also send a message to [standards@tappi.org](mailto:standards@tappi.org) to obtain review copies of drafts in ballot.

Listed below are TAPPI Standards that have recently gone out for ballot to the corresponding Standard-Specific Interest Group (SSIG). The date in parentheses is the closing date for voting.

T 237 “Carboxyl content of pulp” Revision of T 237 cm-98 (December 20, 2007)

T 544 “Effect of moist heat on properties of paper and board” Reclassification of T 544 sp-03 as a Classical Method (January 2, 2008)

T 401 “Fiber analysis of paper and paperboard” Five-year review (January 2, 2008)

T 268 “Weight-volume measurement of pulpwood” Five-year review (January 8, 2008)

### Meeting in January to Discuss a Revision of TIP 0602-03

Some of the users of TIP 0602-03 “Calibration technique for the drum style chip thickness classifier” are interested in making refinements to the documented procedure following its extensive use over the last couple of years. Interested parties are invited to participate in the review of this TIP at a meeting to be held in Atlanta, January 30, 2008. For further details please contact:

## Standards Up for Review January-June 2008

The system for review and development of TAPPI Standards requires an announcement of review dates so that any interested TAPPI members may access the drafts and submit comments.

Listed below are the Standards that will be up for review from January 2008 through June 2008. The date indicated is the target date on which the draft will be posted for review by TAPPI members in the Members Only section of the TAPPI website. Go to the home page ([www.tappi.org](http://www.tappi.org)), log on with your member ID and password, place your cursor over "Membership," and select "My TAPPI" from the dropdown box. When your personal page appears, click on the "Standards Public Draft Review" link on the left-hand side. You do not have to be a member of the Standard Specific Interest Group to comment on the draft.

If you have joined the Standard Specific Interest Group for any Standards, you will receive a notice for ballot at the proper time with instructions for casting your vote and making your comments. If you wish to join the Standard Specific Interest Group for a particular Standard, please go to the [Subject Categories for Standards](#) page or contact the Standards Department at TAPPI ([standards@tappi.org](mailto:standards@tappi.org)), or phone +1-770-209-7276 or fax +1-770-446-6947).

|             |                                                                                                                      |
|-------------|----------------------------------------------------------------------------------------------------------------------|
| T 230 om-04 | Viscosity of pulp (capillary viscometer method) (January 4, 2008)                                                    |
| T 657 sp-04 | Sampling of fillers and pigments (January 11, 2008)                                                                  |
| T 207 cm-99 | Water solubility of wood and pulp (January 18, 2008)                                                                 |
| T 489 om-04 | Bending resistance (stiffness) of paper and paperboard (Taber-type tester in basic configuration) (January 25, 2008) |
| T 830 om-04 | Ink rub test of containerboard (February 1, 2008)                                                                    |
| T 409 sp-04 | Machine direction of paper and paperboard (February 15, 2008)                                                        |
| T 692 om-04 | Determination of suspended solids in kraft green and white liquors (March 7, 2008)                                   |
| T 491 om-04 | Water immersion test of paperboard (March 14, 2008)                                                                  |
| T 826 om-04 | Short span compressive strength of containerboard (March 17, 2008)                                                   |
| T 428 om-04 | Hot water extractable acidity or alkalinity of paper (March 21, 2008)                                                |
| T 406 om-04 | Reducible sulfur in paper and paperboard (April 4, 2008)                                                             |
| T 574 pm-04 | Wax in pulp, paper and paperboard (April 11, 2008)                                                                   |
| T 432 cm-99 | Water absorbency of bibulous papers (April 18, 2008)                                                                 |
| T 448 om-04 | Water vapor transmission rate of paper and paperboard at 23°C and 50% RH (April 25, 2008)                            |
| T 453 sp-04 | Effect of dry heat on properties of paper and board (May 2, 2008)                                                    |
| T 414 om-04 | Internal tearing resistance of paper (Elmendorf-type method) (May 16, 2008)                                          |
| T 274 sp-97 | Laboratory screening of pulp (MasterScreen - type instrument) (June 20, 2008)                                        |
| T 555 om-04 | Roughness of paper and paperboard (print-surf method) (June 27, 2008)                                                |

## Searching and Ordering TAPPI Standards and TIPs

Details on how to search and order TAPPI Standards and TIPs can be found on the TAPPI website's [Search and Order](#) page.

All individual TIPs or Test Methods are available for electronic or paper delivery. For electronic delivery, the documents are e-mailed in PDF format. Hard copy documents can be mailed or faxed, but shipping and handling costs will apply.

For Individual TIPs, order Item Number: 0108\_\_\_\_ (Insert TIP number)

For Individual Test Methods, order Item Number: 0104T\_\_\_\_ (Insert Test Method number)

**List price: \$49; TAPPI member price: \$32. There are no shipping or handling charges for electronic documents.**

The 2007-2008 collection of TIPs, published in March 2007, and the 2006-2007 collection of Test Methods, published in March 2006, are available on CD. A print-on-demand version of either the Test Methods or the TIPs set, current and updated as of the date printed, is also available. Company Licenses for access to the continually updated collection of Test Methods and TIPs via the web is the best way to always have a current set of documents accessible by all company personnel.

For information and quotes on company licenses, contact Simona Marcellus at [smarcellus@tappi.org](mailto:smarcellus@tappi.org) or +1-770-209-7293. For regular orders, contact Member Connection at 1-800-332-8686 (US), 1-800-446-9431 (Canada), or +1-770-446-1400 (international), or order on line at [www.tappi.org](http://www.tappi.org).

---

TAPPI Standards guidelines require that all TAPPI members receive notification of any proposed new Standards or TIPs. This message is being sent to you because you are a TAPPI Member; have purchased TIPs or Standards products from TAPPI; or because you have previously expressed interest in this topic.

*TAPPI is the leading technical association for the worldwide pulp, paper, and converting industry.*
