

## Contribution of Papers

Scientists and engineers who would like to present papers on the listed topics above are invited to submit an abstract (250-300 words) with the authors' contact information (presenter, co-authors, and correspondence details: mailing address, email and phone number) before November 20, 2009.

Each offer of paper will be considered by the Academic Program Committee. You will be notified by December 31, 2009 if your paper has been accepted. A 'Guide for Preparation of Preprints' will be forwarded with the advice that the paper has been accepted. This will detail the requirements for the paper to be published in the Proceedings. Papers are accepted on the basis that the principal author or a co-author will be attending the Symposium to present it.

**PLEASE ATTACH A COPY OF THE FORM IN THE  
END TO YOUR 250-300 WORD ABSTRACT**

## 4<sup>th</sup> ISETPP

4<sup>th</sup> International Symposium on Emerging Technologies of Pulp and Papermaking

November 8-10, 2010, Guangzhou, China

**First Circular and Call for Paper**

### Organized by:

State Key Laboratory of Pulp & Paper Engineering, South China University of Technology, Guangzhou, China

### Cooperated with

Technical Association of the Pulp and Paper Industries, USA  
China Technical Association of Paper Industry

### Sponsored by:

National Natural Science Foundation of China  
Ministry of Science and Technology, China  
Ministry of Education, China

## Welcome

We would like to warmly invite you to the 4<sup>th</sup> ISETPP to share the latest developments in the field of pulping & papermaking with experts from the world. Your participation will be of benefit to the conference.

## General Topics

- Plant fiber chemistry and genetic engineering on fiber resources
- Lignin biosynthesis and chemistry
- New technology of chemical pulping, chemimechanical pulping and secondary fiber recycling
- New technology of pulp bleaching and biobleaching
- New technology of papermaking and wet end chemistry
- New technology of effluent treatment and waste utilization
- Equipment and process control in pulping and papermaking
- New technology in biomass conversion and biorefinery
- New technology of finishing, coating and printing

## Timetable for Offers

Abstracts refereed by Friday 20 November 2009

Acceptances notified by Thursday 31 December 2009

Full manuscripts required by Wednesday 30 June 2010
