

INVITATION TO PRESENT

2010 TAPPI PEERS Conference Pulping-Engineering-Environmental-Recycling-Sustainability

TAPPI is pleased to announce the call for papers for the **2010 TAPPI PEERS conference** (Formerly the TAPPI EPE Conference). The **TAPPI PEERS** Conference is the perfect forum for paper industry professionals both to acquire practical operating insights and to network with industry peers in technical sessions, tutorials, round tables, new technology sessions and workshops.

Fiber, Pulping Topics

- Fiber Supply, Quality, Consistency, Process Yields
- Bleaching and O₂ Delignification
- Reducing Water Usage for Pulping and Bleaching

Mill Operations and Engineering

- Improving Reliability and Asset Management
- Optimizing Chemical Recovery
- Save Money on Capital Expenditures and Reduce the Risks from Corrosion
- Using Advanced Process Simulation and Control to Reduce Variability
- Steam and Power – How to Save Energy and Reduce Costs

Biorefining and Energy Cost Reduction

- Thermochemical/ Biochemical Conversion Processes – Bench and Demo Scale
- Black Liquor Gasification
- Mill Residuals to Chemicals
- Biomass Energy and Energy Conservation
- Integrating a Biorefinery with Kraft Pulping
- Alternative Wood-based Fuels: Solid Lignin; Bark

Environmental Management and Regulation

- Air Quality and Permitting
- Solid Waste/Residuals Management
- Water and Wastewater Issues
- Carbon Footprinting
- Ecolabeling

Market Trends

- Global Market Factors Affecting Pulp and Paper Manufacturing
- Technological and Process Advances

Authors interested in presenting a paper on these or related topics should submit an abstract to peers@tappi.org. Submissions are due on or before **April 2, 2010**; authors will be notified by the end of April regarding acceptance. Papers will be due to Session Chairs on June 31, 2010.

OTHER OPPORTUNITIES TO PRESENT:

 <p>Co-located with TAPPI PEERS: Research engineers, scientists, and practitioners are encouraged to submit presentations on all aspects of recycling technologies and operations for raw materials, ranging from newspaper to mixed office recovered paper.</p>	 <p>BioPro Expo Covering the full biomass processing spectrum for multiple industries, from supply through demand and utilization</p>
