

INVITATION TO PRESENT

The International Bioenergy and Bioproducts Conference will focus on technical advancements and commercialization of bioconversion technologies that leverage the forest products manufacturing infrastructure.

The conference will include technical presentations, expert panels, case studies, and reports from projects that address:

- Feedstock and harvesting improvements to increase yield and quality of biomass
- Bioelectricity using combined heat and power (CHP)
- Bioconversion technologies for wood and biomass
- Production of chemicals and transportation fuels from wood and biomass
- Policies and incentives for bioconversion projects

Presentations are sought in the following areas:

Advances in Technology – strong technical papers with a focus on presenting new findings

Biomass Supply & Demand

- Supply Availability Assessments/ Sustainability
- Economic assessments
- Properties of Biomass Materials
- Energy Crop Development
- Developments in Biomass Recalcitrance

Biomass Harvesting & Preparation

- Development of specialized harvesting equipment
- Harvesting and Transportation
- Biomass Preparation
- Biomass Pretreatments
- Biomass Feedstock Characterization

Advances in Conversion Pathways

- Thermochemical Conversion
- Biochemical Conversion
- Hybrid Conversion
- Developments in Enzyme Science

Advances in Bioproducts

- Biofuels
- Biochemicals
- Bioenergy

Commercialization Activities– case studies and updates from pilot scale, commercial, and pre-commercial operations

- | | |
|--|---|
| <ul style="list-style-type: none"> • Biorefineries • Repurposing the Traditional Pulp and Paper Mill • Harvesting and Preparation | <ul style="list-style-type: none"> • Technical Economic Analyses • Commercial Collaborations for Enabling Technologies • Project Deployment Issues |
|--|---|

Impacts of Policies and Incentives – analysis of existing or proposed bioconversion policies at State, Provincial or Federal levels

- | | |
|--|--|
| <ul style="list-style-type: none"> • Public policy proposals • Pulp/paper incentives that support bioconversion progress | <ul style="list-style-type: none"> • Assessing common ground between pulp/paper and agricultural bioconversion policies |
|--|--|

Poster Session – limited space is available for poster presentations. Please submit an abstract for consideration as directed below.

Abstract Submission Deadline: ~~March 9, 2012~~ Extended to March 30, 2012!

Abstract Submission Information:

Authors interesting in presenting a paper should upload their abstract to the TAPPI's Speaker Management System (<http://speakermanagement.tappi.org>).

Abstract Requirements: Abstracts should be no more than 200 words.

Presentations Deadline: September 17, 2012

Author Notification: April 20, 2012

OTHER OPPORTUNITIES TO PRESENT

2012 PEERs Conference

October 14-17, 2012
(Being held in conjunction with IBBC)
