

Table of Contents

0.0 Disclaimer	(Page 5)
1.0 Executive Summary	(Page 6)
2.0 Differential Pressure Flow Measurement	(Page 7)
2.1 Principle of Operation of Differential Pressure Primary Flow Elements	
2.2 Square Root Relationship Between Pressure Drop and Flow	
2.3 Minimum Reynolds Number Constraints	
2.4 Principle of Operation of Differential Pressure Flow Transmitters	
2.5 Low Flow Characterization	
2.6 Measured Quantity	
2.7 Typical Applications	
2.8 Additional Information	
3.0 Differential Pressure Flow Transmitter Technology	(Page 16)
3.1 Capacitance	
3.2 Differential Transformer	
3.3 Force Balance	
3.4 Piezoelectric	
3.5 Potentiometer	
3.6 Silicon Resonance	
3.7 Strain Gage	
4.0 Transmitter Design	(Page 18)
4.1 Analog Transmitters	
4.2 Digital Transmitters	
4.3 Fieldbus Transmitters	
4.4 Multi-Valve Manifolds	
4.5 Traditional and Coplanar Construction	
4.6 Safety Transmitters	
4.7 High Static Pressure Transmitters	
5.0 Supplier Data	(Page 25)
5.1 Process Limits	
5.2 Ambient Limits	
5.3 Output Signals	
5.4 Reference Performance	
5.5 Temperature Effects	
5.6 Pressure Effects	
5.7 Power Supply Effects	
5.8 Mounting Position Effects	
5.9 Stability (Drift)	

6.0 Supplier Data Analysis	(Page 30)
6.1 Process Limits	
6.2 Ambient Conditions	
6.3 Reference Performance	
6.4 Operating Effects	
7.0 Summary of Analysis	(Page 34)
8.0 Differential Pressure Flow Transmitter Performance	(Page 35)
8.1 Accuracy Statements	
8.2 Calculating Rate Statements	
8.3 Measurement Range	
8.4 Data Analysis	
9.0 Reference Performance	(Page 41)
9.1 Primary Flow Elements	
9.2 Effect of Transmitter Accuracy on Flow Measurement	
10.0 Actual Performance	(Page 44)
10.1 Temperature Effects	
10.2 Pressure Effects	
10.3 Mounting Orientation Effects	
10.4 Stability (Drift)	
11.0 Supplier Performance Claims	(Page 48)
11.1 High Rangedown	
11.2 High Turndown	
11.3 High Accuracy	
11.4 Reduced Calibration Requirements	
12.0 Installation Considerations	(Page 52)
12.1 Fluid Characteristics	
12.2 Piping and Hydraulic Considerations	
12.3 Impulse Tubing	
12.4 Differential Pressure Flow Transmitter Installation	
12.5 Differential Pressure Flow Transmitter Calibration	
12.6 Ambient Conditions	

13.0 Accessories	(Page 57)
13.1 Wetted Parts	
13.2 Non-Wetted Parts	
13.3 Differential Pressure Flow Transmitter Signals	
14.0 Explanation of Attachments	(Page 60)
15.0 Differential Pressure Flow Transmitter Supplier Profiles	(Page 61)
15.1 The Major Suppliers of Differential Pressure Flow Transmitters	
15.2 Other Suppliers of Differential Pressure Flow Transmitters
