

# Table of Contents

Part 1: Corrugating Problems	1
A. Singlefacer and Doublebacker Defects	2
Blisters	2
Cockles	7
Washboarding	8
Corrugations—Loose	9
Zipper Bonding	12
Singlefacer Liner Loose Along Slit Edge	13
Doublebacker Liner Loose Along Slit Edge	15
Spotty Adhesive Pattern on Singleface Side	17
Spotty Adhesive Application on Doublebacker Side	18
Warped Board—Normal	19
Warped Board—Reverse	20
Warped Board—“S”	21
Warped Board—Machine Direction	22
Warped Board—Twist	23
Flutes Formed Low	24
Flute Formation, Caliper Loss, and Flat Crush	25
Corrugations—Leaning	27
Corrugations—Cut at Fingers	28
Corrugations—Cut or Fractured	29
Dry Streaks at Fingers on Singlefacer Side	30
Dry Steaks at Fingers on Doublebacker Side	32
Liner Damaged at Fingers	33
Corrugations—High and Low	34
Score Cracking Or Cutting At Corrugator	36
Score Cracking or Checking at Flexo-Folder Gluers, Die Cutters, or Printing Presses	37
Slitting And/Or Cutoff Ragged	39
Facing and Medium Edges not Properly Aligned (Off Line)	40
Singleface Liner Damaged by Excessive Pressure (Pressure Roll Cutting)	41
Wrinkles in Liners or Corrugating Medium	43
Wet Board	44
Dimensions	46
B. Fingerless Singlefacer Defects	47
Defects Related to the Use of Fingerless Singlefacers	47
C. Splicer Defects	55
D. Corrugating Roll Defects	59
Typical New Corrugating Roll Pressure Patterns	60
Uneven Corrugating Roll Nip Pressure Loading	61
Uneven Corrugating Roll Nip Pressure—High in Center	62
Uneven Corrugating Roll Nip Pressure—Low in Center	63
Misaligned—Corrugating Rolls Not Parallel	64
Overall Corrugating Roll Wear	65
Worn Out Rolls	66
Excessive Wear Around Finger Slots Lower Corrugating Roll	67
Pitted Corrugating Rolls	68
Dirty Corrugating Rolls	69
Damaged Corrugating Rolls	70
Fractured or Cut Flutes	71

E:	Visual Glue Line References	.73
	Singleface—Target	.73
	Singlefacer—Dirty Glue Roll, Wide Applicator Gap (Applicator Glue Roll to Lower Corrugator Roll)	.74
	Singlefacer—Adhesive Slinging	.75
	Singlefacer—Finger Lines	.76
	Singlefacer—Vacuum Lines	.77
	Singlefacer—Start of a Wet Streak/Wet Streaks	.78
	Singlefacer—Fluff Out	.79
	Singlefacer—Speed Ratio (Over/Under Speed)	.80
	Singlefacer—Light Glue Lines	.81
	Singlefacer—Heavy Glue Lines	.82
	Singlefacer—Low Adhesive Viscosity	.83
	Singlefacer—High Adhesive Viscosity	.84
	Doublebacker—Target	.85
	Doublebacker—Light Glue Lines	.86
	Doublebacker—Heavy Glue Lines	.87
	Doublebacker—Excessive Brake	.88
	Doublebacker—Debris Wiping Starch	.89
	Doublebacker—Low Viscosity Adhesive	.90
	Doublebacker—Wide Gap—Rider to Glue Roll	.91
	Doublebacker—Speed Ratio (Over/Under)	.92
	Doublebacker—High Viscosity Adhesive—25 Quad Roll	.93
	Doublebacker—Blow Outs	.94
	Doublebacker—High Lows	.95
	Doublebacker—Adhesive Slinging	.96
	Doublebacker—Bridge Web Tension	.97
Part 2:	Printing Problems	.99
	A. Printing Defects	.100
	Dimensions—Incorrect	.100
	Printing Plates—Incorrect Layout	.101
	Printing Plates—Poor Condition	.102
	Poor Definition	.103
	Distorted Image	.104
	Register	.105
	Printing Crush	.106
	Ink—Non Standard Colors and Shades	.107
	Ink—Poor Coverage	.108
	Poor Trapping/Overprint	.112
	Offset	.114
	Ink Smearing/Tracking	.115
	Dirty Printing	.117
	Ink Fill In	.119
	Ink Voids	.121
	Incorrect Printing Copy	.122
	Print Askew	.123
	Haloing (Flexo Presses Only)	.124
	Striations (Flexo Presses Only)	.125
	Washboard Print (Flexo Presses Only)	.126
	Ink Foaming (Flexo Presses Only)	.127
	Pinholes or Fisheyes (Flexo Presses Only)	.128
	Dark or Dirty Print Color (Flexo Presses Only)	.129
	Mottled Print (Flexo Presses Only)	.130
	Uneven Print (Flexo Presses Only)	.131

	Inconsistent Print Color (Flexo Presses Only)	132
	Dirty Print/Dot Bridging (Flexo Presses Only)	133
	Weak Print Color (Flexo Presses Only)	134
	Insufficient Ink (Flexo Presses Only)	135
B.	Sample Anilox Rolls	136
	Anilox Roll References	138
	Sample Anilox Rolls	139
	Summary: Sample Anilox Rolls	147
Part 3:	Die Cutting Problems	149
	Biased Blanks (Flat Bed)	150
	Inaccurate Crease	151
	Fracture At Crease (Flat Bed, Rotary, or Platen)	152
	Board Sticks To Die (Flat Bed)	153
	Hanging Trim (Flat Bed, Rotary, or Platen)	154
	Cutout or Trim Not Stripping (Flatbed or Rotary)	155
	Ragged Edge (Flat Bed)	156
	Sticking Slots (Flat Bed and Rotary)	157
	Die Not Cutting (Flatbed, Rotary, and Platen)	158
	Improper Impressions (Rotary)	160
	Decreasing Die Cut (Rotary)	161
	Uncut Corners	162
	Uneven Cutting (Rotary)	163
	Breaking Dies (Rotary)	164
	Deflection Problems (Rotary)	165
	Crushed Board (Rotary)	166
	Improper Die Register (Flatbed and Rotary)	167
	Loss of Dimensional Stability (Rotary)	168
	Abnormal Anvil Wear (Rotary Only)	169
	Excessive Makeready Time (Platen)	170
Part 4:	Finishing And Manufacturer's Joint Problems	171
A.	Feed Section Problems	172
B.	Slotting Section Problems	173
	Slitting—Ragged	174
	Scoring Defects—Rolling Scores	175
	Scoring Defects—Panel Scores Cut or Rolling	176
	Slots—Deep or Shallow	178
	Slotting—Ragged	179
C.	Folding Section Problems	180
	Folding Section Jam Ups	180
	Conveyor Belt Damage to Box	181
	Pull Collar and/or Feed Roll Damage—Excessive	182
	Manufacturer's Joint Too Wide	183
	Manufacturer's Joint Too Narrow or Overlapped	184
	Manufacturer's Joint Width Inconsistent	185
	Manufacturer's Joint Skewed (Fishtailed) or out of square (Flap Scores don't link up within 1/8") or a Combination of the Two Conditions	186
	Improper Glue-Lap Tab (or Stitch Tab)	188
D.	Counter Ejection Section Problems	189
E.	Glue Lap Problems	190
	Blocking of Finished Glue-Lap Boxes	190
	Internal Fiber Failure at Glue-Lap Joint	191

Glue-Lap not Adhered to Board After Pressure Section . . . . .	192
Trim Adhered to Glue-Lap/Tab Knives Not Cutting . . . . .	193
Weak Glue-Lap Bond . . . . .	194
Extruded Glue Mechanism Problems . . . . .	195
Improper Folding At Glue Tab . . . . .	197
F. Stitching Problems . . . . .	198
Stitches—Broken or Malformed (Unclinched) . . . . .	198
Stitches—Poor Clinching . . . . .	200
Stitches—Incorrect Number . . . . .	201
Stitches—Improper Spacing . . . . .	202
Stitches—Poor Vertical Placement . . . . .	203
Stitches—Poor Lateral Placement . . . . .	204
Stitch Lap—Poor Folding . . . . .	205
G. Taping Problems . . . . .	206
Tape—Cut Crooked . . . . .	206
Tape—Long or Short . . . . .	207
Tape—Not Centered . . . . .	208
H. Common Curtain Coating Problems . . . . .	209
