

Polymer Nanocomposites Handbook: Table of Contents

Overview of Challenges and Opportunities, *R.K. Gupta, E.B. Kennel, and K.-J. Kim*

History of Carbon Nanomaterials, *A. Oberlin and G.G. Tibbetts*

The Incorporation of Nanomaterials into Polymer Media, *H.C. Ashton*

Mixing Terminology, Nanoparticle Dispersion and Reinforcement by Surface Modification with Additives, *K.-J. Kim and J.L. White*

Surface Modification of Carbon Nanofibers, *M.L. Lake, D.G. Glasgow, G.G. Tibbetts, and D.J. Burton*

Compounding Layered Silicate Nanocomposites, *P. Andersen*

Dispersion of Agglomerated Nanoparticles in Rubber Processing, *K.-J. Kim and J.L. White*

The Rheology of Polymeric Nanocomposites, *S. Bhattacharya, R.K. Gupta, and S. Bhattacharya*

Fundamentals of Carbon-Based Nanocomposites, *E.V. Barrera, E. Corral, M. Shofner, and D. Simeon*

Polymer Nanocomposites Containing Vapor-Grown Carbon Fibers Aligned by Magnetic or Electric Field Processing, *T. Takahashi and K. Yonetake*

Utility of Carbonaceous Nanofillers in Elastomers and Thermoplastic Elastomeric Gels, *J.K. Kim, M. Pagalicawan, and V. Sridhar*

Nanocomposites of Liquid Crystalline Polymers Dispersed in Polyester Matrices, *C.H. Song and A.I. Isayev*

Transmission Electron Microscopy and Related Techniques in the Structure Characterization of Polymer Nanocomposites, *V.K. Berry*

Mechanical Properties of Clay-Containing Polymeric Nanocomposites, *L.A. Utracki*

Appendices, Mass Transport through Polymer Nanocomposites, *D. De Kee and K.J. Frederic* Flammability

Properties of Polymer Nanocomposites, *J. Zhu and C.A. Wilkie*

Electrical Properties of Nanoparticle-Filled Polymers, *E.B. Kennel*

Thermal Conductivity of Polymer Nanocomposites, *S. Agarwal and R.K. Gupta*

Bio-Based Nanocomposites from Functionalized Plant Oils, *C.-K. Hong, J. Lu, and R.P. Wool*
