YOUR PERFORMANCE

UCB SoniXs®
The NEW corrugated bundling solution from Mosca

Presented by Randy Wright
VP Corrugated Industry Sales
Squaring Bundler Options for Specialty Folder Gluer Production

**S-ATRS6 SoniXs®**
Proven industry standard in the Americas. Latest Generation with SoniXs® ultrasonic sealing technology. Operator assisted.

**UCB SoniXs®**
Provides sophisticated bundle handling for graphically sensitive/high-value products. Strap choice flexibility. Features SoniXs® ultrasonic sealing technology. Operator assisted.
Squares and Straps
Makes handling complex bundles easy.

Bundle Control
Five-sided and optional six-sided squaring system with powered top, bottom and side conveyors for precise bundle control.

All Electric System Controls
Intuitive user guidance via colored touch panel with ergonomic positioning options. No pneumatics.

SoniXs® Ultrasonic Sealing Technology
Proven superior sealing results against industry standard sealing methods like heat and friction seals.

Strap Use Flexibility
Runs Polypropylene (PP) and Polyester (PET) strap in widths of 5mm-12mm.
Additional Features

**HMI Screen**
Intuitive user guidance via colored touch panel with ergonomic positioning options.

**Easy Maintenance**
Easy maintenance due to pull-out strapping unit. The strapping head can be disassembled without tools.

**Auto Coil Changer**
Reduce downtime with a dual coil, auto coil changer. Changing a coil takes only 12 seconds!

**Conveyor**
- Infinitely adjustable conveyor speed.
- Electrically driven lateral and top conveyors provides smooth bundle transport.
Removable Strapping Section
SoniXs® Ultrasonic Sealing Technology
For a reliable, strong seal with increased cycle life, no warm-up required, reduced cleaning and preventive maintenance.

Strap Complex Bundles
In a variety of widths and sizes with single or double straps.

Memory Storage
Select from stored recipes to easily switch between different types of product. Stores a large range of recipes.

Intelligent Bundling
Recipe criteria includes bundle parameters: tension, conveyor speed, strap pattern and position, compression, backstops and back pusher engagement.
Auto Coil Dispenser
Reduce downtime and automatically change coils in just 12 seconds.

Intuitive Controls
Intuitive user guidance via colored touch panel with ergonomic positioning options.

Tool-less Maintenance
Make regular preventive maintenance easy with tool-less disassembly of the strapping head.

High-Performance
Achieve up to 32 single strapped bundles per minute, or 20 double strapped bundles per minute.
Back Pusher

Precise Bundle Control
Five-sided and optional six-sided squaring system with powered top, bottom and side conveyors.

Six-sided squaring
Ensures Complete Front to Back Squaring for delicate/gravely sensitive products.
Fully Automatic Integration

The UCB SoniXs® is capable of being integrated into a fully automatic specialty folder gluer line.
Thank you!
