"Anthraquinone Pulping: A TAPPI PRESS Anthology of Published Papers"
Edited by, Gopal C. Goyal

1997, 600 pages
Item Number: 0101R269
ISBN: 0898523400

This new anthology contains 93 technical papers covering all aspects of the use of anthraquinone (A) in different pulping processes. In this unique collection of papers, the editor has compiled information on the use of anthraquinone in soda, kraft, and sulfite processes to reduce active alkali charge, H-factor and to achieve lower Kappa (extended delignification) pulp. The book is divided into five sections:

- Kraft/Soda and Anthraquinone Pulping
- Polysulfide and Anthraquinone Pulping
- Combination of Anthraquinone with Neutral and Alkaline Sulfite Processes
- Mechanism of Anthraquinone Reaction
- Analytical Methods for Anthraquinone

**TABLE OF CONTENTS**

**Chapter 1**

Low Kappa Pulping Without Capital Investment - Use of Anthraquione for Low Kappa Pulping / 3

Extending the Digester Delignification with Anthraquione / 10

Tearing Resistance in Soda-AQ and Kraft Pulps / 30

Low Sufidity and Additive Cooking by Modified Batch (MB) Cooking / 34

Anthraquinone - A Simple Approach for Extended Delignification in Conventional Kraft Pulping / 42

Oxidative Pretreatment of Loblolly Pine with Alkaline Hydrogen Peroxide and Soda-AQ Pulping / 49
Soda-AQ Pulping and the Tear Strength Problem / 84

The Effects of Anthraquinone on the Reaction Rate of Kraft Pulping of Northeastern White Pine / 89

Kraft Anthraquinone Pulping of Sawdust / 93

Digester Operating Conditions and Pulp Quality in a Soda-AQ Pulp Mill / 100

Studies on Kraft and Soda-Anthraquinone Pulping of Indian Mixed Hardwoods / 104

Influence of Sulfite on the Effectiveness of Anthraquinone in Soda Pulping / 108

Comparisons of As-AQ Pulping of Mixed Hardwoods and Pulping by the Conventional Kraft Process / 110

Substituting AQ for AA in Kraft Pulping / 113

Soda Anthraquinone Pulping of Douglas Fir / 116

The Interrelationship of Residual and Initial Alkali Concentrations for Kraft and Soda Pulping at Constant Hfactor / 121

The Carbohydrate Composition of Soda-Additive Pulps / 12
MacLeod, J.M., Iwase, H., and Bolker, H.I., *Tappi J.*, 67(5)

Delignification Rates of Alkaline-AQ Processes / 127

The Influence of Low-Lignin Pulping Conditions on Bleachability: Effects of Anthraquinone and Effective Alkali Charge / 129

Kinetics of Soda-Anthraquinone Delignification / 134
The Interaction of Anthraquinone with Tall Oil Components / 137

New Opportunities for In-Plant Reduction of Pollutants Through Process Changes / 139

Would Anthraquinone be Economical in Your Pulp Mill? / 143

Effect of Sulfidity in Alkaline Pulping of White Spruce with Anthraquinone / 146

Anthraquinone in Kraft Pulping / 149

The Influence of Sulfidity on the Bleachability and Strength Properties of Alkaline-Anthraquinone Softwood Pulps / 152

Kraft and Soda Pulping of Decayed Western Hemlock Using Anthraquinone / 156

The Strengths of Kraft-AQ (Anthraquinone) and Soda-AQ Pulps / 158

Soda-Anthraquinone Pulping of Hardwoods - Process Models / 162

Kraft Pulping with Anthraquinone: Laboratory and Full-Scale Mill Trials / 165

Quinone Additives in Soda Pulping of Hardwoods / 170

Defining AQ Pulping Activity: Part 1- AQ vs. Sulfidity / 175
Kutney, G.W., TAPPI 1984 Pulping Conference Proceedings, TAPPI PRESS, Atlanta, p.65

A Review of New Alkaline-AQ Processes / 184
MacLeod, J.M., TAPPI 1983 Pulping Conference Proceedings, TAPPI PRESS, Atlanta, p.89

Low-Sulfidity Kraft-Anthraquinone Pulping of Hardwood/Softwood Mixtures / 187
Mill Experience with Kraft/Quinone Additive Pulping of Eucalyptus in Batch Digester / 196

Improved Kraft Pulping of White Spruce Bark/Wood Mixtures with Anthraquinone / 203

Low-Lignin Pulping to Replace or Enhance Oxygen Bleaching / 208
McDonough, T.J., and Van Drunen, V.J., TAPPI 1982 International Pulp Bleaching Conference Proceedings, TAPPI PRESS, Atlanta, p. 59

Evaluation of Kraft / AQ Pulping at Gardiner Mill (of International Paper Co.) / 220

Anthraquinone Pulping: Fifteen Years After / 227

Chapter 2

Use of AQ/PS Pulping Additives for the Production of Linerboard Pulp / 239

Anthraquinone and Polysulfide - Applicability foe Use in Pulp Mill Operations / 253
Deal, H., TAPPI 1996 Pulping Conference Proceedings, TAPPI PRESS, Atlanta, p. 73

Sulfide Profiling for Increased Kraft Pulping Selectivity / 261

Anthraquinone and Anthraquinone Polysulfide Pulping for Extended Digester Delignification / 269
Katz, G., TAPPI 1993 Pulping Conference Proceedings, TAPPI PRESS, Atlanta, p.323

Extended Delignification of Southern Pine with Polysulfide and Anthraquinone / 278
Jiang, J.E., TAPPI 1993 Pulping Conference Proceedings, TAPPI PRESS, Atlanta, p. 313

Operating Experiences with the Moxy Process and Quinoid Compounds / 287

The Use of Quinone Additives in Kraft and Polysulfide Pulping / 292
Green, R.P. and Smith, G.C., TAPPI 1983 Pulping Conference Proceedings, TAPPI PRESS, Atlanta, p. 79
Applications of Anthraquinone to Kraft and Polysulfide Pulping / 298

Application of Anthraquinone in Extending the Delignification of Kraft and Polysulfide Pulps. Part 1: Pulping and Bleaching of Mixed Hardwoods / 304

Extending Delignification with AQ/Polysulfide / 317

Chapter 3

Can Sulphite Pulp Challenge the Predominance of Kraft Pulp Successfully? / 337

A Novel Sulphite Pulping and Chemical Recovery System for Small-and Medium-Scale Pulp Mills / 334

Manufacture of Bleached Aspen Market Pulp Without the Use of Chlorine or Chlorine Dioxide / 348

The Characteristics of MSS-AQ Pulping: A New Pulping Process / 352

Sulfite-Quinone and Sulfite-Oxygen Delignification / 358

The Role of Anthraquinone in Sulphite-Anthraquinone Pulping / 363

Ultra High Yield Pulps From Black Spruce by Acid Bisulphite, Neutral Sulphite and Neutral Sulphite SAQ Pulping / 371
A New Cooking Method for Producing Wood Sugars and Specialty Pulps / 376

Alkaline Sulfite-Anthraquinone Pulp From Aspen / 382

An Evaluation of the Sulfite-AQ Pulping Process / 386

A Neutral-Sulfite/SAQ Chemimechanical Pulp for Newsprint / 390

A Case Study - Converting a Kraft Mill into a NSAQ (Neutral Sulfite Anthraquinone) Mill / 396

Neutral Sulfite AQ Pulping as an Alternative to Kraft Pulping / 401

An Evaluation of SAQ (Sulfite-Anthraquinone) Pulp / 406

Sulfite-Anthraquinone Pulping of Southern Pine for Linerboard / 414

Chemimechanical Pulp From Neutral (pH 7.5) Sulphite/SAQ (Soluble Anthraquinone) Pulping for Newsprint Manufacture / 431

NSSC/AQ Pulping of P. Radiata - Laboratory and Mill Experience / 437

Neutral Sulfite AQ Pulping and Bleaching of the Pulps / 443
A Case Study to Convert Kraft Mill into a NSAQ (Neutral Sulfite-Anthraquinone) Mill / 454

Some Results of Mill Trials with AQ as a Pulping Additive in Finland / 462
Virkola, N.E., TAPPI 1980 Pulping Conference Proceedings, TAPPI PRESS, Atlanta, p.479

NS (Neutral Sulfite) or SAS (SemiAlkaline Sulfite) AQ Pulping as an Alternative to Kraft Pulping / 465

Chapter 4

Pulping with Anthraquinone: Fundamental Chemistry / 479
Dimmel, D.R., TAPPI 1996 Pulping Conference Proceedings, TAPPI PRESS, Atlanta, p.53

A Comparative Study of the Delignification Efficiencies of Alkaline Pulping Systems / 485

Kinetic Studies on Soda-Anthraquinone Pulping of Indian Mixed Hardwood / 500

Lignin Functionalization and the Alkaline Delignification Rate / 505

Soda-AQ Delignification of Hardwoods: Reactions, Mechanism, and Dissolved Lignin Characteristics / 511

Sulfide and Anthraquinone-like Catalysts Delignify Wood via Different Chemical Mechanisms in Alkaline Pulping / 518

AQ Radicals in Alkaline Pulping / 522
Effect of Quiones and Amines on Cleavage Rate of Beta 0-4 Ethers in Lignin During Alkaline Pulping / 524

Quinones in Alkaline Pulping: Characterization of an Anthrahydroquinone - Quinone Methide Intermediate / 528
Landucci, L.L., Tappi J., 63(7): 95(1980)

The Effect of Reducing Agents on Anthraquinone Pulping / 533

Quinones in Alkaline Pulping: Beta-Ether Cleavage of Free Phenolic Units in Lignin / 535

Improved Stabilization of Carbohydrates by the Oxygen-Quinone System / 540

Soda Pulping with Anthraquinone: A Mechanism / 542

Carbohydrate Stabilization During Soda Pulping with Addition of Anthraquinone / 546

Soda-Anthraquinone Pulping: Advantages of Using Oxygen-Free Conditions / 549

The Analysis of Anthraquinone in Pulping Liquors and Pulp Products by HPLC (High Performance Liquid Chromatography) and TLC / 555

Pulping Catalysts from Lignin / 558

Liquid Chromatographic Determination of Anthraquinone in Soda and Kraft Pulping Liquor, Pulp, Air Filters, and Wastewater / 561

Determining Anthraquinone Content: Analysis of Pulp- and Paper-Type Materials and Pulping and Pulping Liquors by Gas Chromatography / Mass Spectrometry / 566

Reduction Products of Anthraquinone: Soda-Anthraquinone Pulping of Norway Spruce / 570
Polargraphic Analysis of Soda-Anthraquinone Pulping Liquor / 575

Chapter 6

Patent Literature on Anthraquinone / 581
