The Cost of Corrosion  
George F. Hays

Suction Roll Material Comparison  
Paul E. Glogowski

Surface Contamination on Stainless Steel in Paper Machine Environment  
Leena Carpen, Suvi Papula, Taina Leino, Pekka Pohjanne, Per Stenius and Hannu Hanninen

David Bennett and Stanley F. Botten

Corrosion of Power Equipment in Industrial Atmosphere of Pulp and Paper Plants  
Bella Chudnovsky

Corrosion Resistance of Duplex Stainless Steel and Its Welds in Modern Kraft Batch Cooking  
Heikki Leinonen

Effects of Weld Mixing on Digester Weld Overlay  
Alex D. Nadezhdin and Thomas Davidson

Corrosivity of Black Liquor From a Modern Digester to a High Dry Solids Concentrator  
Anja Klarin-Henricson

Corrosion in Evaporator Plants and Heavy Black Liquor Tanks  
Lars J. B. Trosellius

Causes and Solutions for Recovery Boiler Primary Air Port Composite Tube Cracking  

Recovery Boiler Tube Temperature Excursions Caused By Smelt Contact  
Chee Vui Tay, Masahiro Kawaji, Honghi Tran and Thomas M. Grace

Cracking And Performance Of Composite Tubes And Air Port Designs In A Kraft Recovery  
Joseph R. Kish, Douglas L. Singbeil, James R. Keiser, Angela Wensley and Francois R. Jette

Inspection, Repair, And Prevention Of Cracking Of Composite Tubes At Primary Air Port Openings In A Recovery Boiler  
Angela Wensley
The Strength of Recovery Boiler Tubes Containing Stress-Assisted Corrosion
W.B.A. Sharp

Design and Application of New Primary Airport Castings for Increased Recovery Boiler
Robert P. Viscardi, Keith Rivers, Robert Fortino, Richard A. Wessel and John A. Kulig

Long Lasting Black Liquor Spray Nozzles - An Update
Gerry Kistka, Stuart A. Morrison and Wes Aaron

Changing Recovery Boiler Operation to Reduce Primary Air Port Tube Temperature and Composite Tube Cracking in a Recovery Boiler
Blaine A. Anderson, Keith Rivers, Brian Stone and Honghi Tran

Experience of Recovery Boiler Superheater Corrosion at Carter Holt Harvey Kinleith
Honghi Tran, Warren Blakemore and Murray J. Ellis

Refractory Tiles for Improved Recovery Unit Floor Tube Protection
Mark P. LeBel

Materials Issues in Black Liquor Gasification Systems
James R. Keiser, Roberta A. Peascoe, James G. Hemrick, Camden R. Hubbard, Bruce A. Pint, J. Peter Gorog, Ravi R. Chandran and Peggy Y. Hou

Mid Furnace Corrosion in Kraft Recovery Boilers
Preet M. Singh, Jorge Perdomo and Mahmood Jamshad

Soot Blower Lance Tube Corrosion In Recovery Boilers
Mohomed Ishaq Jameel, Hans Schwade, Augusto C. Lovo, Honghi Tran and Nelson Oliveira

Performance of Composite Tube Cladding Materials in Kraft Recovery Boiler Environments
Preet M. Singh, James R. Keiser, Peter Gorog and Margaret E. Gorog

Corrosion Equipment
Gunnar Bergman

Performance of Steels Against Corrosion in Peracid Bleach Media
Ajay Singh and G. Singh

Influence of Chelating Agents in Alkaline Bleaching on Titanium Corrosion
Elsa Ruiz, Claudia Mendez and Rogelio Stampella

Corrosion Prevention During Acid Cleaning of Pulping Equipment
Jorge Perdomo, Pablo Conde, Preet M. Singh and Moses Wekesa

S32101 (LDX 2101?) - A New Leaner Duplex Stainless Steel for Tanks & Pressure Vessels
Claes Ericsson, Viktor Jägerström and Jan O. Olsson
12Cr Ferritic Stainless Steel: A Cost-effective Alternative to Carbon Steel in Several Pulp and Paper Mill Environments
David C. Bennett and Chris Beckitt

Emerging Technologies - Panel Discussion
Preet M. Singh

Use of Large-Diameter Lines of Sand-Filled FRP Piping for High Temperature Pulp Mill Effluent - Lessons Learned From Some Failure Cases
Gunnar Bergman

Investigation of Deep-Wall Blistering in High-Quality FRP Piping at a Bleach Plant
Stefanie Romhild and Gunnar Bergman

ECTFE/FRP Applications in Chlorine Dioxide, Sodium Hypochlorite, Sodium Chlorate, Sodium Hydroxide, Sulfuric and Hydrochloric Acids Environments
Rafic Moubarac and Martin Ouelett

Dual Laminate ClO₂ Bleach Tower Upflow Tube
Dale Keeler
# 2004 INTERNATIONAL CHEMICAL RECOVERY CONFERENCE

</table>
Operation Analysis and Advanced Control Application for the Modern Rotary Kiln
Song Won Park, Roberto Villarroel, Sidinei Marconato and Wu Hong Kwong

Lime Kiln Fuel Savings
Bill McPherson and Purna Pai

Effect Of Chloride And Potassium On Borate Autocausticizing Reactions During Black Liquor Combustion
Honghi Tran, Xiaosong Mao, Jiyoung Kim and Saied Kochesfahani

Borate Autocausticizing Equilibria in Recovery Boiler Smelt
Daniel Lindberg, Rainer V. Backman, Mikko M. Hupa, Saied Kochesfahani, Helen Rickards and L. Perander

Autocausticization by Borate in Burning Black Liquor Droplets
Mikael Forssen, Mikko M. Hupa, Saied Kochesfahani and Helen Rickards

Partial Borate Autocausticizing Proven a Success in Europe
Maria Bjork, Thomas Sjogren, Tommy Lundin, Helen Rickards and Saied Kochesfahani

Direct Causticization for Low and High Temperature Gasification
Ingrid Nohlgren, Scott A. Sinquefield, Ph. D., Allan Ball, Xiaoyan Zeng and Howard L. Empie, Jr.

Borate Autocausticizing for Low and High Temperature Black Liquor Gasification
Scott A. Sinquefield, Ph. D., Ingrid Nohlgren, Allan Ball and Xiaoyan Zeng

Leading Paper - Experience of High Pressure and Temperature Recovery Boilers for Two Decades
Yoshihisa Arakawa, Yuzo Taguchi, Takayuki Maedo and Yoshitaka Baba

Expandable Recovery Boiler, a Novel Method for Future Capacity Increase
Antti T. Raukola and Kari Haaga

Numerical Modeling Feedback in Recovery Boilers
Kari Saviharju, Lauri Pakarinen, Kaj Wag and Ilkka Valipakka

REA and Recovery Boiler Operations (The "Other" Liquor Parameter)
John D. Porter, Ron W. Dokis and Kirsten E. Maki

Stacked-Air System Improves Recovery Boiler Operation
Daniel R. Higgins, Phillip Crosby, Jerry W. Yuan and Gene Sullivan

Maximizing Recovery Boiler Performance with Combustion Air System Upgrades
Dave R. Burton and Stuart A. Morrison

Best Operational Procedures - White Liquor Plant - Aracruz Mill Experience
Floreal Puig and Alexandre Figueiredo
Scrubbing Non-Condensible Gases with White Liquor to Remove TRS
Kevin Zhiwei Zhang, Charles Q. Jia, Honghi Tran, Peter Rouillard, Robert McDonald and William C. Adams

Recausticization And Lime Mud Reburning - How The Plant Can Be Retrofitted and It's Designed In The Future
Hans K. Theliander

Caustic Soda Production from Green Liquor Using the Green Liquor Splitting (GLS) System
Naceur Jemaa, Roxare Thompson, Michael Paleologou, Marcel Cormier, Ron W. Dokis, Craig J. Brown and Michael Sheedy

Formation of Guarded Sodium in Lime Mud
Honghi Tran, Xiaosong Mao, Alice Lee and Jonathan Nhan

Experience Of Screen Tube Damage Caused By Falling Deposits In Kraft Recovery Boilers
Roberto Villarroel, Honghi Tran and Claudia R. Goncalves

Interaction Between Sootblower Jet and Superheater Tubes in Recovery Boilers
Danny S. Tandra, Andrei Kaliazine, Donald E. Cormack and Honghi Tran

Particle Formation and Deposition in Recovery Boilers
Richard A. Wessel, Larry L. Baxter, Christopher Shaddix, Christopher L. Verrill, Steven J. Lien, Honghi Tran and William J. Frederick, Jr.

Chloride and Potassium Removal Processes for Kraft Pulp Mills: A Technical Review
Honghi Tran and Paul F. Earl

An Experimental Study of the Mechanisms of Fine Particle Deposition in Kraft Recovery Boilers
Larry L. Baxter, Greg Hatch, Scott A. Sinquefield, Ph. D. and William J. Frederick, Jr.

Analysis of the Techniques for the Chloride and Potassium Removal From Industrial Pulp and Paper Plants
Marcelo Cardoso, Eder Domingos de Oliveira, Daniel Moreira Saturnino and Song Won Park

Leading Paper - Practical Experiences from Very High Dry Solids Concentrator
Jarmo Kaila, Jukka Veitola and Heikki Jaakkola

Prediction of Crystal Species Transition in Aqueous Solutions of Na₂CO₃ and Na₂SO₄ and Kraft Black Liquor
Alfi Soemardji, William J. Frederick, Jr., Christopher L. Verrill and Hans K. Theliander

Squeezing Out More Evaporator Capacity
Kinley Moore

Operation and Performance of the D Set Evaporator Train at Aracruz
Adam Edwards, Michael S. Begley, Samuel Onada and Augusto Cesar Lovo
Manipulation of Crystallization to Resolve Severe Concentrator Scaling
Christopher L. Verrill, Fernando T. Giehl and Edvins Ratnieks

Update of the American Forest and Paper Association Recovery Boiler Program
Thomas J. Grant

Leading Paper-Distribution and Release of Nitrogen Compounds at Kraft Pulp Mills - A Survey of Three European Mills
Nikolai A. DeMartini, Mikael Forssen, Mikko M. Hupa, Klaus Niemela, Per R. Ulmgren and Asa Samuelsson

Sulfur and Nitrogen Compounds in Rectified Methanol From Foul Condensate Stripping
Klaus Niemela

Sulfur Dioxide Emission Dependency on Kraft Recovery Boiler Operation Parameters
Jonas Wallen, Tuomo Ruohola and Anne Aikio

NOx Chemistry in Recovery Boilers Under Staging Conditions
Anders Brink, Mikko M. Hupa, Edgardo Zabetta and Kari Saviharju

Trace Element Distribution in and Around the Recovery Boiler
Rainer V. Backman, Henrik Wikstedt, Bengt-Johan Skrifvars, Mikko M. Hupa, Tuomo Ruohola and Kari Haaga

Ammonia Scrubber for Condensate Stripper Off-Gases
Wilson T. Gautreaux, Jennifer L. Matthews, Johnny L. Hardee and Kevin Bunting

Causes and Solutions for Recovery Boiler Primary Air Port Composite Tube Cracking

Recovery Boiler Tube Temperature Excursions Caused By Smelt Contact
Chee Vui Tay, Masahiro Kawaji, Honghi Tran and Thomas M. Grace

Cracking And Performance Of Composite Tubes And Air Port Designs In A Kraft Recovery
Joseph R. Kish, Douglas L. Singbeil, James R. Keiser, Angela Wensley and Francois R. Jette

Inspection, Repair, And Prevention Of Cracking Of Composite Tubes At Primary Air Port Openings In A Recovery Boiler
Angela Wensley

The Strength of Recovery Boiler Tubes Containing Stress-Assisted Corrosion
W.B.A. Sharp

Design and Application of New Primary Airport Castings for Increased Recovery Boiler
Robert P. Viscardi, Keith Rivers, Robert Fortino, Richard A. Wessel and John A. Kulig
Recovery Process Alternatives for Sulfur-Free Pulping
Volkmar Mickal, Juergen Karg, Kari Savilharju, Kari Ebeling and Kaj O. Henricson

Use of Kraft Recovery Cycle Residues in Mineralization of Forest - Controlling Leaching Rates of Easily/Limited Soluble Species
Maryam Mahmoudkhani, Tobias E. Richards and Hans K. Theliander

Recovery of Strongly Alkaline Chemicals for the NovaCell Process
Lars L. Stigsson, Per R. Ulmgren, Rainer V. Backman and Per Tomani

Long Lasting Black Liquor Spray Nozzles - An Update
Gerry Kistka, Stuart A. Morrison and Wes Aaron

Changing Recovery Boiler Operation to Reduce Primary Air Port Tube Temperature and Composite Tube Cracking in a Recovery Boiler
Blaine Anderson, Keith Rivers, Brian Stone and Honghi Tran

Experience of Recovery Boiler Superheater Corrosion at Carter Holt Harvey Kinleith
Honghi Tran, Warren Blakemore and Murray J. Ellis

Refractory Tiles for Improved Recovery Unit Floor Tube Protection
Mark P. LeBel

Refractory and Chain System Technology in Rotary Lime Kilns
Ashleigh E. Walters

Determination of the Total Sulfur Content in Black Liquor by X-ray Fluorescence
Jarmo Louhelainen, Raimo J. Alen and Jukka Pekka Isoaho

Black Liquor Gasification with Direct Causticization Using Titanates - Leaching of Sodium Tri-Titanate
Ingrid Nohlgren and Henrik Bladlund

Characterisation of a Spray Burner Nozzle for Black Liquor Gasification
Magnus M. Marklund

Black Liquor Gasification with Direct Causticization Using Titanates - Recycling Effects on the Solid Sodium Titanates
Ingrid Nohlgren, Kristina Magnusson and Tobias E. Richards

Swelling Behavior of Black Liquor Droplet With Addition of Sodium Borates or Sodium Titanates During Drying and Devolatilization
Tobias E. Richards and Joko Wintoko

Coordinating Research Priorities For Black Liquor Gasification
Michael Farmer, Scott A. Sinquefield, Ph. D. and Steven Burke

Modeling Swelling Of Black Liquor Droplet During Pyrolysis
Joko Wintoko, Tobias E. Richards and Hans K. Theliander
Ignition and Combustion of Single Black Liquor Droplets in Reduced Gravity
Tadas P. Bartkus, James T’ien, Daniel Dietrich and Richard A. Wessel

Preliminary Study on Black Liquor Gasification with Borate Autocausticising
Sylvain Leduc, Mikael Ahlroth and Jinyue Yan

Numerical Studies on Root Causes of Primary Airport Cracking in Recovery Boilers
Jianwei Yuan, Dave Stropky and Martha Salcudean

Combustion by Design-Petcoke Firing in Lime Recovery Kilns
Richard Manning and John MacFadyen

Smelt Sampling Probe for Use in the Kraft Recovery Boiler
Howard L. Empie, Jr. and Daniel A Armstead

Rapid Determination of Total Dissolved Solids in Black Liquors by ATR-UV/VIS Spectroscopy
Xin-Sheng Chai, Qingxi Hou and Christopher L. Verrill

Rheological and Physical Properties of Alkaline Pulped Wheat Straw Black Liquors: Effects of Desilication and Pulping Process Conditions
Yaman M. Boluk, Ph. D. and Wade Chute

Chromizing Potential in Pulp & Paper Boilers and Related Equipment
Jeff Henry, Stuart A. Morrison and Michael Quinlan

New Developments in Recovery Boiler Ignitor Systems
David E. Gadai and Steven R. Gibowski

Computer Simulated Multi-Component Aerosol Formation and Chemistry
Larry L. Baxter and Eric Halpenny

Borate Autocausticizing During Char Bed Burning
Steven J. Lien, Saied Kochesfahani and Christopher L. Verrill

A Model for Black Liquor Devolatilization Kinetics
Kristiina Iisa and Atlasi Danehsvar Mehvelat

Particulate Reduction in Recovery Boiler Emissions
Rick Chaney

Gasification of a Bed of Kraft Black Liquor Char
Adriaan Van Heiningen and Thomas Connolly

Cost-Benefit Assessment of Motor Fuels Production Via Black Liquor Gasification
Niklas Berglin, Mats Lindblom and Tomas Ekbom

Predicting Recovery Boiler Performance and Exploiting Data Visualization for the Critical Variables
Song Won Park, Gustavo Matheus de Almeida and Marcelo Cardoso
Kinetics of the Direct Causticizing Reaction between Sodium Carbonate and Sodium Trititanate
Adriaan Van Heiningen and Xiaowen Chen

Heat Transfer Through Solids Bed in Lime Kilns
Manan Paul, David C. S. Kuhn and Pierre E. Sullivan

Effects of Particle Shape and Size on Black Liquor and Biomass Reactivity
Hong Lu, Justin Scott and Larry L. Baxter

ECTFE/FRP Applications in Chloride Dioxide, Sodium Hypochlorite, Sodium Chlorate, Solium Hydroxide, Sulfuric and Hydrochloric Acids Environments
Rafic Moubarac and Martin Ouelett

An Improved Method for Washing Lignin Precipitated from Kraft Black Liquor
Fredrik Ohman, Hans K. Theliander and Henrik Andersson

Char Bed Cooling - Significance of Recent Incidents
Thomas M. Grace and Honghi Tran

A Review of the Conditions in Chemical Recovery Boilers That Result in Poor-Flowing Smelt
Ibrahim Karidio, Vic C. Uloth and Jack Porter

The Fluidity of Recovery Boiler Smelt
Honghi Tran, Anita Sunil and Andrew K. Jones

CFD Based Modeling of Recovery Boiler Char Beds
Nici Bergroth, Christian Mueller and Mikko M. Hupa

Comprehensive, Three-dimensional CFD Model of a Reacting Char Bed
Larry L. Baxter, Benjamin Ohran, Michael Choi and Soren Kaer

Measurement of Gas Composition inside a Recovery Boiler Char Bed
Adriaan Van Heiningen and Thomas Connolly

A Review of Superheater Problems, Their Causes & Solutions
John McMillan

Chemical Balance of Non-Process Elements in Five Finnish Pulp Mills
Keijo Salmenoja, Veli-Antti Kivilinna, Rainer V. Backman and Mikko M. Hupa

Influence of Liquor-to-Liquor Differences on Recovery Furnace Processes - A CFD Study
Christian Mueller, Kaj Eklund, Mikael Forssen and Mikko M. Hupa

Analysis of Composition and Characteristics of "Kraft" Black Liquor From Brazilian Pulp and Paper Industries
Marcelo Cardoso, Claudia R. Goncalves, Eder de Oliveira and Maria Passos
Recovery Operation at Riau Mill
M. P. Chandrasekhar

Advanced Fault Diagnosis Applied to Recovery Boiler Abnormal Situations
Song Won Park, Gustavo Matheus de Almeida, Marcelo Cardoso, Changjun Lee and En Sup Yoon

Leading Paper - Composition Of Carryover Particles In Recovery Boilers
Honghi Tran, Asghar Khalajzadeh, David C. S. Kuhn and Richard A. Wessel

Effect of Gas Composition on Fume Sintering Rates
Steven J. Lien, Hans K. Theliander and William J. Frederick, Jr.

Particulate Emissions from Char Bed Burning
Steven J. Lien and Christopher L. Verrill

A Comparison of the Sulfation Rates of Different Fume Species in Recovery Boilers
Kristiina Iisa

Intermediate-Sized Particle (ISP) Formation During Black Liquor Droplet Combustion
Larry L. Baxter, Leong-Tang Ip, Warren Roberts, Daniel Ripa and Dale Tree

Feasibility of Using Low Pressure Steam for Sootblowing
Andrei Kaliazine, Donald E. Cormack and Honghi Tran

Leading Paper-Black Liquor Steam Reformer Start-up at Norampac
Dave G. Newport, Lee N. Rockvam and Robert S. Rowbottom

Presentation of a Dry Black Liquor Gasification Process with Direct Caustisization
Erik Dahlquist, Ph. D. and Andrew K. Jones

The Chemrec Black Liquor Gasifier at New Bern - A Status Report
Craig A. Brown, Ray Leary, J. Peter Gorog and Zia Abdullah

Sodium and Sulfur Process Chemistry in Black Liquor Gasification and Combustion - Review and Reevaluation of Basic Thermochemical Data
Anders Nordin, Anders Larsson, Gustav Lindberg, Erik Rosen, Bjorn Warnquist, Mathias Raberg, Dan Bostrom and Rainer V. Backman

Review of the Kinetics of Gasification of Kraft Black Liquor
Adriaan Van Heiningen and Thomas Connolly
