

**Papermaking Technology and Operations
Call for Papers**
Abstract Submission Deadline: December 15, 2023

This track will focus on innovations in the paper machine area and how they can help drive success on the machines utilizing vision, technology, and action. Presentations and discussions will encourage papermakers to rethink their processes and redefine success. We want to Rock the Roll in 2024, Unleashing the Harmonies in the Paper Industry!

Potential topic areas from the HD through the winder include:

Success in the Papermaking Process

- Air systems
- Drying
- Energy Systems
- Forming
- Headboxes
- Pressing
- Process Control
- Steamboxes
- Stock Approach
- Stock Preparation
- Drives
- Vacuum Systems
- And others

We invite submissions for oral and poster presentations.

Submissions will include an extended abstract or manuscript as part of the submission process.

Full manuscripts are not required to be a part of the technical program.”

Success in Papermaking Systems

- Data Analytics
- Quality Systems
- Resource Conservation
- Project Management
- Safety Systems
- Technical Support
- Training

Papermaking Success Stories

- New Machines & Rebuilds
- Innovative Research
- Innovative Paper Products
- New Technology Implementation
