

Introducing the HP PageWide T700i Press

Trevor Schroeder,
HP PageWide Industrial Product Marketing Manager

HP PageWide T700i Press

Achieve operational efficiency for high-volume production with a robust digital web-fed platform for digital single-face lamination, corrugation, and folding carton applications.

Increase capacity and reduce costs for paper-based packaging production

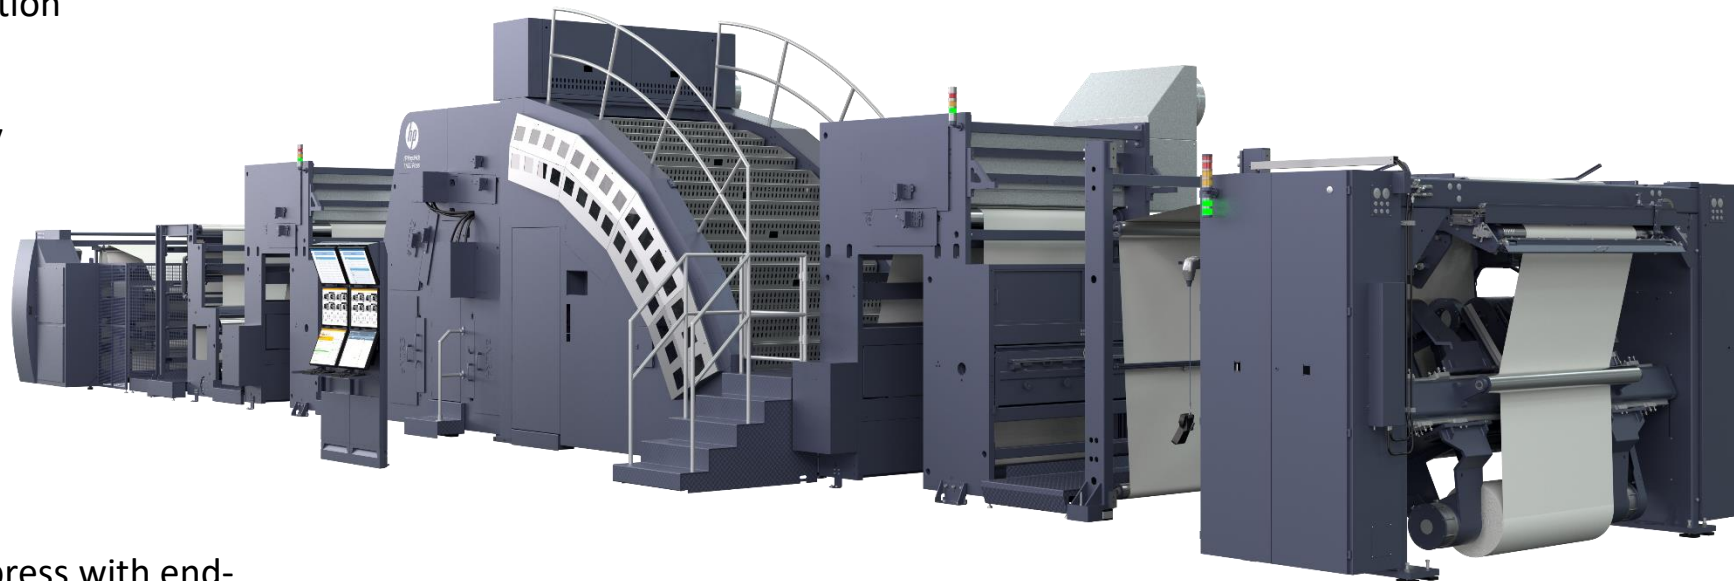

Contribute to circular economy goals across a wide range of applications

Achieve consistent offset quality and vibrant color for high-graphics packaging

Fuel your success beyond the press with end-to-end solutions from trusted partners

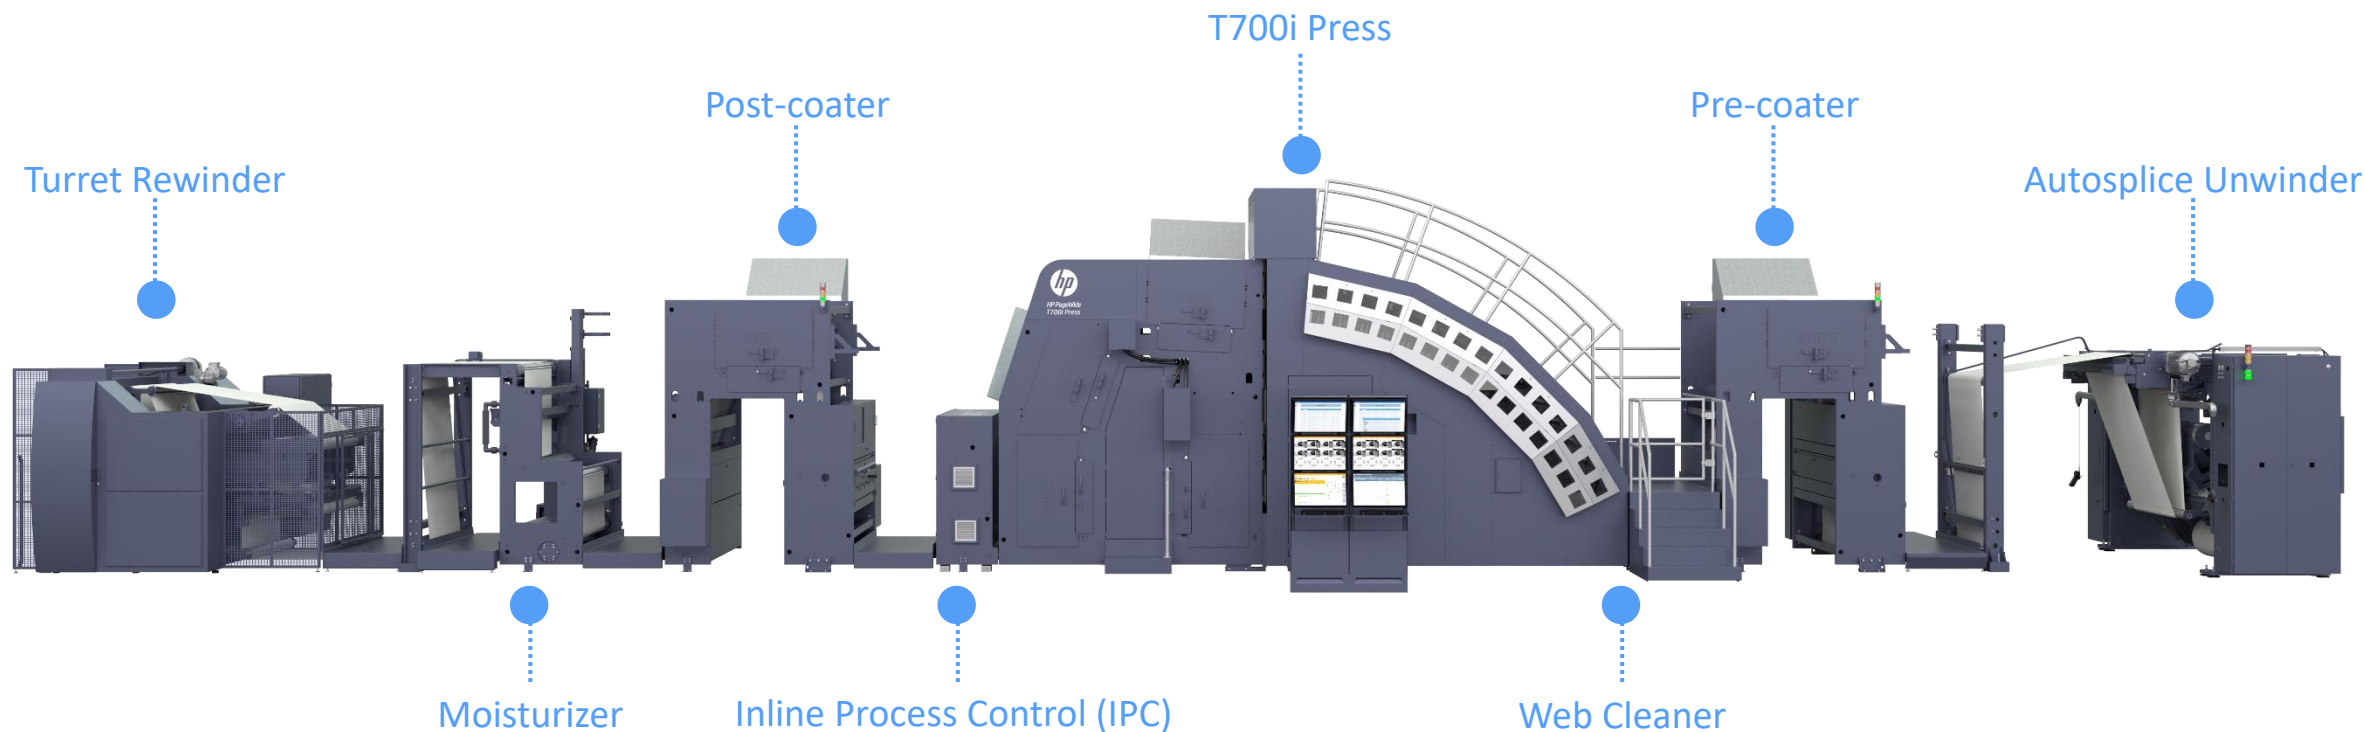

The HP PageWide T700i Press is currently available for preorder and first installation is expected in late 2023
