Staff Webinar lead:	<u>Natasha Bush</u>
Title:	Moving Forward: Preventing Continuous Digesters Failures Through Inspection Best Practices
Copyright Release:	☒ Yes ☐ No - Please check – refer to attached <i>Copyright Release Form</i>
Marketing and sponsorship:	☐ Yes ☒ No - Are there specific Companies that have been supportive of your research and efforts that would be a good match for us to approach for sponsorship? Are there any potential sponsors (or types of companies) we should be aware of that would present a conflict? The webinar will be marketed and promoted by TAPPI. It will also be solicited for sponsorship.

Speaker Full Name:	Catherine A. Noble, P.E.	Company:	Acuren Inspection
Email:	Catherine.noble@acuren.com	Phone Number:	512-653-2277

Webinar Overview/Abstract (100-175 words):

The presentation will discuss the typical experience with continuous digester inspections, inspection methods and damage mechanisms, non-ideal situations that occur during outages, and best practices for inspections. We will likely end with a discussion on optimal inspection practices, specifically discussing surface preparation techniques.

Keywords (at least 5):

Continuous digester, inspection, NDE, surface preparation

Audience (Who Should Attend?):

Typical Job Titles

Outage Planner

Plant Engineer

Inspection Supervisor

Field Engineer

Type of Company

Paper Mill

Paper Mill

Inspection

Inspection
