

Name: Mark Mitchell

Position: Senior Manager – Application Engineering

Company: Henkel Corporation

Years of TAPPI Membership: 18

TAPPI Activities: Corrugated Packaging Council 2009 – 2012

Corrugated Board Technical Services Committee (Corbotec) 2010 - Present

Reasons candidate would be an asset to the Corrugated Packaging Council:

I have been dedicated to the corrugated industry for 23 years, and have been a TAPPI member for 18 years. My experience on both the corrugating and finishing sides of box plants, as well the deep understanding of adhesives on both sides could be an asset to this committee. I also have the perspective of being a past Council member from 2009-2012, with my additional industry experience over the last 10 years has brought me additional industry perspective that would be of great benefit to the Corrugated Packaging Division. I look forward to bringing different perspectives to make this committee even more effective. I look forward to potentially joining this team, and hope to learn much more throughout my tenure on this committee. Thank you for your consideration.

Bio

Mark Mitchell is Senior Manager – Application Engineering for Henkel Corporation. Mark joined National Starch & Chemical as a Technical Service Engineer for the Adhesives group in 1992. Over his 30 years with National Starch & Henkel, Mark has worked in the Technical Service group and has lived in New Jersey, Kansas City, Los Angeles, San Francisco, and currently in the Dallas / Fort Worth area.

Mark started managed the Western Region Technical Service team for National Starch starting in 1999, with a heavy focus on the Corrugated industry. Mark became manager of the Corrugating Technical Service team for North America in 2006 before becoming part of Henkel in 2008.

Mark earned a B.S. degree in Chemical Engineering from the University of Delaware in 1992. Mark was an elected member of the TAPPI Corrugated Packaging Division Council from 2009 – 2012 (Industry Supplier) and has been a Corbotec member since 2010 and a TAPPI member since 2004.
